

A large, stylized graphic of blue leaves and branches is positioned in the upper half of the slide, creating a sense of organic flow and depth. The leaves are rendered in various shades of blue, from light to dark, and are arranged in a way that suggests a natural, growing structure.

# Lessons Learned

- Moved away from using the Audit Guide as our agenda for the Kickoff Meeting. Created Powerpoint decks instead to walk through the audit process with employers/TPAs.
- Transferred most of the audit specific items (e.g. due dates, contact information) to the appendix at the end of the audit guide.
- Added two standard meetings for audits (in addition to the Kickoff Meeting):
  - Claims process meeting (Claims audits)
  - Draft Report meeting
- Clarified language in our document requests and the employee survey (Application audits) to better communicate what information we require in the audit.
- Added additional items to review (e.g. annual notices and policy documents), consolidated some of the existing checklist items (e.g. claim calculation items).
